

DIGGING DEEP

INDIA'S BATTERY MANUFACTURERS IMPORT LITHIUM AND LITHIUM-ION FROM NATIONS SUCH AS HONG KONG, INDONESIA, MALAYSIA, SINGAPORE, JAPAN AND SOUTH KOREA

WITH NATIONS TRYING TO ACHIEVE THEIR NET-ZERO GOALS, LITHIUM HAS BECOME A KEY METAL AS THE FOCUS SHIFTS TOWARDS ELECTRIC VEHICLES

SURE

BY **NIDHI SINGAL**

THE DISCOVERY OF A 5.9 MILLION TONNE LITHIUM RESERVE PUTS INDIA IN THE TOP 10 COUNTRIES WITH RESERVES OF THE METAL

THE LITHIUM RESERVES IN J&K ARE CATEGORISED AS PRELIMINARY EXPLORATION. THE NEXT STEP IS TO ESTIMATE THEIR SHAPE, SIZE AND GRADE
