

DRIVING ECONOMIC GROWTH WITH INVESTMENTS IN INFRASTRUCTURE

Rahul Kanwal (left), News Director, India Today and Aaj Tak, and Executive Director, Business Today, with **Nitin Gadkari**, Minister of Road Transport & Highways

» Green hydrogen is the future for the country and India will become an energy-exporting nation. Railways, airlines, trucks and buses will run on green energy

» India will become the world's automobile manufacturing hub within five years. It is currently in third position, after China and the US

» Rural, agricultural,

and tribal areas need more investment. If India produces energy like hydrogen and ethanol in villages, their growth rate will increase

» India needs to identify sectors where domestic players can do joint-venture collaborations and bring tech. The world's best tech should be in India, as it will boost exports

RIDING THE MACRO STORM

Udayan Mukherjee (left), Global Business Editor, Business Today, with **Shaktikanta Das**, Governor, Reserve Bank of India

REINFORCING THE BACKBONE OF INDIA'S ECONOMY

Siddharth Zarabi (left), Managing Editor, Business Today TV, with **Bhagwat Kishanrao Karad**, Minister of State, Ministry of Finance

» Public and private sector banks have opened more than 470 million new bank accounts as part of the government's financial inclusion push

» The government's focus has been to work on financial inclusion, financial literacy and digital transactions

» The government does not want to sell everything. It wants to see efficiency increased

in the public sector units that are not doing well

» The Modi government is aiming at the formalisation of the economy and financial inclusion

» The aim of financial inclusion means banking for the unbanked, securing the unsecured and funding for those who are not funded

BANKING ON THE COMPETITIVE EDGE
