Amitabh Chaudhry,
MD & CEO, Axis Bank

» While the Indian economy is growing despite geopolitical concerns, there is a need to be cautious and aware of the risks around

» Inflation is coming under control but given what is happening around the world, it could remain sticky for some time. One factor feeding into this is that China has opened up and it will start growing at a fast pace again

» Credit growth will be a subset of deposit growth. If deposit growth does not come back, then credit growth will get affected because you can't rely on external borrowings to fund that

» The gap between Axis Bank and ICICI Bank has narrowed. Axis wants to be No. 1, but it's a long journey and it wants to give tough competition to ICICI Bank and HDFC Bank

BANKING ON THE ECONOMY

BharatPe, and former
chairman, SBI
Murali Ramakrishnan, MD &
CEO, South Indian Bank
R. Subramaniakumar, MD &
CEO, RBL Bank
Sunil Mehta, Chief
Executive, Indian Banks
Association

» What differentiates today's consumers is the influence of e-commerce on them, which involves the ease and convenience of doing an e-commerce transaction

» Banks, NBFCs and fintechs are doing several similar things but each one of them has a unique advantage over the other

» Banks have a higher trust factor when it comes to liabilities; NBFCs and fintechs don't have that

advantage

» If a small bank can offer convenience and the best product suite in the industry, they don't necessarily have to have a brick-and-mortar space. Thanks to tech, collection, analytics, underwriting and sourcing, everything is available digitally today

» With tech, the world of banking is moving in the direction of 'banking ab haath mei' (banking at your fingertips)

THE PARTNERSHIP BETWEEN BANKS & FINTECHS
