

Dr. Minnie Bodhanwala

CEO – Nowrosjee Wadia Maternity Hospital and
Bai Jerbai Wadia Hospital for Children

It took a great deal of strategic planning, innovation and hard work with patience in order to bring back the glory for both the Hospitals

HOW SHE HAVE STARTED

A Leader and Visionary, Dr Minnie has shined in many fields for the last 35 years of her career. She is the CEO for two public hospitals in Mumbai, The Bai Jerbai Wadia Hospital for Children and The Nowrosjee Wadia Maternity Hospital. She is also the advisor to the Chairman of Wadia Group for CSR activities, advisor to Impact India foundation by UNDP, UNICEF and WHO, advisor to the Modern Education society, advisor for Britannia Nutrition foundation and advisor to Sir Ness Wadia Foundation. She has also been appointed as a Director for leading companies in India; Bombay Dyeing & MFG CO. LTD, National Peroxide Pvt Ltd & Bombay Burmah Trading Co. Ltd.

When Dr Minnie took charge of the Hospitals in 2012 both Hospitals were still functioning from one building, she not only had the challenge of improving the quality of services in one premises but also the mammoth task of shifting the Children's Hospital to its original premises and ensure safety for the patients. Streamlining the hospital operations in weakened infrastructure with a financial crisis did not keep Dr Minnie away from accepting the challenge and taking up the post of CEO for these hospitals. It took a great deal of strategic planning, innovation and hard work with patience in order to bring back the glory for both the Hospitals.

THE UNIQUE CHARACTERISTICS

Dr. Minnie possesses domain knowledge in implementation and execution as per requirements, ensuring high-quality standards in service delivery, identifying control enhancement modules; escalating significant issues identified and proposing resolutions. She is experienced in successfully managing diverse groups of people as well as handling union committees. A visionary and ethical enterprise originator, she nurtures and executes new ideas, engages in multiple projects, recreates branding for organisations, business verticals and is confident in taking the organisations to the next level.

CHALLENGES AND OPPORTUNITIES SHE HAS FACED

Throwing light over the stereotypes that haunted the industry, "Being a lady, it was a challenge to be accepted in the male-dominated industry." The major challenges and opportunities faced were the refurbishment of the more than 90 years Children's Hospital where a world class NICU, Cardiac sciences, Neurosciences, Haemat-oncology, Club Foot, Central Paediatric TB Centre, A Zero Day Hemodialysis Center and Bone Marrow Transplant that were initiated despite challenges. The hospital also got NABH Nursing

Excellence Certification for a charitable institution, which made it the first charitable institution in India to receive NABH Nursing Excellence certification.

TURNING POINT

Time and again she had come across several instances wherein she would take operational roles along with her routine practice, one such opportunity was when she was associated with Impact India Foundation for the "Hospital-on-Wheels" project to handle functionalities as a Coordinator Surgeon to set up the 1st Dental Unit on the Train, this was the turning point in her life where she realized that she could reach a larger number of people and create much more impact in the society as a healthcare professional and thus got more inclined towards the management aspect of Healthcare. Also she had always felt that though our country has so many talented doctors there is definitely a need for better healthcare management in our country, the gap was because not all non-medicos could understand healthcare that well, a doctor could definitely understand the management aspect better and hence she pursued leadership in Healthcare.

HER LEADERSHIP QUOTIENT

Dr. Minnie has been Featured in India Forbes March 2019 as a "Globally Recognized Indian Business Leaders" and also rated amongst the top 25 Living legends of Healthcare in the country and a recipient of over 50 National and International awards in Healthcare, Public Health and Entrepreneurship. Recently she has also attended the Women on Boards Program at Harvard T. H. Chan School of Public Health.

THE ROAD AHEAD

Continue to work for quality and affordability in healthcare and focus on public health programs.
