

Criticare Asia Hospitals

Redefining Quality Healthcare with Dr. Deepak Namjoshi's and Mrs. Masuuma Namjoshi's CritiCare Asia Multi-Speciality Hospital

CritiCare Asia Multi-Speciality Hospital and Research Centre is an organisation that complies by the motto 'Your Health is Our Concern' since 1999. The hospital is known for its high quality services and facilities in the field of healthcare amongst the people of Mumbai and also members of the medical community.

Dr. Deepak J. Namjoshi
Founder & Director – CritiCare Asia
Hospitals & Research Center

The founders of CritiCare Asia Multi-Specialty Hospital, Dr Deepak Namjoshi and Masuuma Namjoshi redefine accessible healthcare by living by the principle of patient -first approach, rooted in the ethos of trust, quality, compassion , and transparency. The hospital's highest priority is to provide top-notch and accessible healthcare for all. This is achieved through the leadership of its founders.

The establishment began off as nothing but a small 12-bed nursing home in the financial hub of Mumbai but now has grown to become an accredited hospital group, well known name in the field of medicine with over 400 beds and counting . The credit for this massive growth and rapid success is given to the patients of the the hospital as they appreciated the services CritiCare Asia provided to them which encouraged the founders to expand the organisation.

The hospital group is harmoniously lead by the dynamic couple of founders. Mrs Masuuma Namjoshi being the driving force of the hospital in order to guarantee a smooth patient experience and expand the hospital's foot print in various geographies. Dr Deepak Namjoshi works towards bringing the best of medical technology and extremely talented Doctors into the hospital. Together the duo work towards CritiCare Asia achieving its full potential. Both of them come from a simple middle-class family and hence identify the woes of the middle-class which wants quality health care which is easily accessible and which is not out of reach. keeping this goal in mind the Namjoshi's worked on developing quality healthcare accessible to all strata of the society from poor to the super rich.They understood for a big city like Mumbai, hospitals are required at multiple geographical locations for easy access of citizens to quality healthcare. Hence they have focused on Mumbai as their Karma Bhoomi.

The hospital group of CritiCare Asia Multi-Speciality Hospital and Research Centre currently consists of three hospitals and the fourth one is soon to be commissioned. The healthcare centres are placed in Juhu, Andheri East, Kurla and soon to be opened at Malad. Criticare Asia is perhaps the only Hospital in Mumbai
