

Mrs. Masuuma Namjoshi

Founder & Director – CritiCare Asia
Hospitals & Research Center

Healthcare is a dynamic sector, there are always new challenges that we face, there's always a necessity to keep evolving ourselves to make sure that we provide the best healthcare to our patients. Setting protocols, upgrading technologies and keeping the team motivated to deliver their best at all times is very important.

with presence in four geographical locations for easy access for all its patients.

When it comes to facilities CritiCare Asia Multi-Speciality hospital provides complete care under one roof and has always been leading when it comes to bringing the best in technology to support their efficient team of skilled doctors. The Cath Lab commissioned in the Juhu branch of the hospital was perhaps the first in India of its kind. They also brought the third generation robot for knee replacement for the first time in the western suburbs. These are just few examples of how the latest technology was envisioned and commissioned in Criticare Asia by its founders. It is one of the very few multi-organ retrieval centers that enables organ donations of brain-dead patients to give a new life to

patients who will benefit by organ transplant as per our law. Furthermore, CritiCare Asia Hospital conducts free dialysis to many patients every month. Inculcating philanthropy in the core values of the hospital. The founding duo have elevated CritiCare Asia as an institution of reliance and reverence.

The hospital proves to stand out from others as CritiCare Asia Multi-Speciality Hospital receives high ratings and prestigious awards each year. To name a few CritiCare Asia's honours it has won various awards such as the Times Health Excellence award, award for India's top Small Medium Enterprises, and the highest prestigious Maharashtra Gaurav Award. CritiCare Asia has been rated as one of the top ten hospitals in Mumbai consistently for several years.

It has achieved a NABH accreditation and the Kurla branch is currently Asia's only LEED Platinum Certified hospital.

"Healthcare is a dynamic sector there are always new challenges that we face, there's always a necessity to keep evolving ourselves to make sure that we provide the best healthcare to our patients. Setting protocols, upgrading technologies and keeping the team motivated to deliver their best at all times is very important. We make sure that we just don't treat patients but we treat every patient with care" says Masuuma Namjoshi

"Constant upskilling and embracing new technologies is a must to give uncompromised care to our patients" says Dr. Deepak Namjoshi.
