

## | THE POINT |

**1.65 billion**

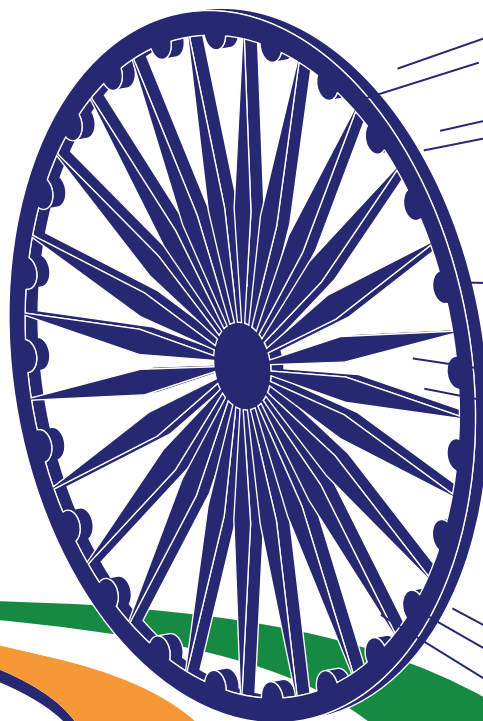

LIKELY POPULATION OF INDIA IN 2047 (AS PER UN PROJECTIONS), COMPARED TO AROUND 1.40 BILLION IN 2021

**3<sup>rd</sup>**

INDIA WILL BE THE THIRD-LARGEST IMPORTER BY 2050, BEHIND CHINA AND THE US

**\$1 trillion**

INDIA'S EXPORTS BY 2030, ACCORDING TO PIYUSH GOYAL, UNION MINISTER FOR COMMERCE AND INDUSTRY

# TOWARDS THE INDIAN CENTURY

As India celebrates its 75<sup>th</sup> year of Independence, market experts and industry players predict the world's sixth-largest economy will leapfrog developed nations like Japan and Germany by 2050. This may lead to an increase in per capita income along with other metrics. Here are some projections on where the country will stand
