

## UBER, TIGER EXIT ZOMATO

**INVESTMENT FIRM TIGER** Global Management and ride-hailing firm Uber have sold stakes in Indian food delivery firm Zomato as the one-year lock-in period ended on July 23. While Tiger made a partial exit to reduce its holding from 5.11 per cent to 2.77 per cent, Uber sold its entire 7.78 per cent stake in Zomato. Tiger

Global Management had first invested in Zomato in September 2020 at a valuation of \$3.4 billion and followed up later in February 2021 at a valuation of \$5.4 billion. Uber had picked up the stake when Zomato acquired its local food business Uber Eats in an all-stock deal in 2020.

## THE COMING 5G WAVE

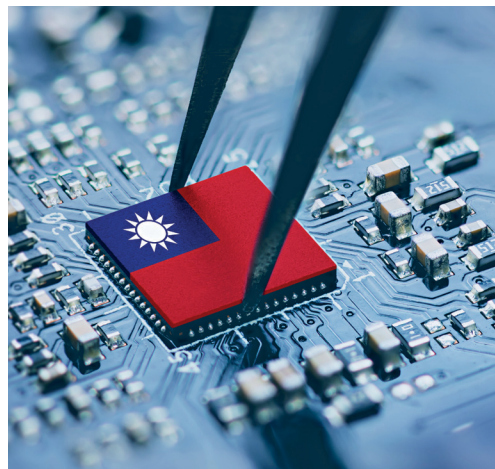

Even before 5G has been introduced, the April-June quarter saw one 5G-enabled phone in every three smartphones shipped in India, according to CyberMedia Research. Samsung, vivo and OnePlus, which led the charge, are all smiles as they are expected to do an encore through CY2022, when 62 to 70 million 5G smartphones would be shipped. Your smartphone is set to get smarter, and faster, soon.

## China-Taiwan and the Indian Automobile Industry

**US House Speaker** Nancy Pelosi's visit to Taiwan could not have come at a worse time for India's automakers, which are already reeling from a semiconductor shortage. Given that Taiwan controls around 63 per cent of the global semiconductor market, a China-Taiwan war would only aggravate the shortage, feels Federation of Automobile Dealers Associations President Vinkesh Gulati.

## BUILDING THE ROAD TO GROWTH

The acquisition of Macquarie Asia Infra's four toll road assets in Gujarat and Andhra Pradesh at an enterprise value of ₹3,110 crore by Adani Road Transport Ltd (ARTL) has added to the 5,000 km of operational or under construction highway projects the company already has in its portfolio. The past few years have seen the Ahmedabad-headquartered Adani Group betting big on infrastructure assets on land, sea and air.

## In Foreign we Trust

ACCORDING TO DATA from the Ministry of Chemicals and Fertilizers, India's imports of medical devices rose to \$8.5 billion in 2021-22 from \$6.2 billion in 2020-21, with implants registering the biggest increase—from \$225.63 million in 2020-21 to \$423.06 million in 2021-2022. The rise is triggering unrest among local players who say they are compelled to shut shop after pooling in funds to manufacture masks, PPE kits, thermometers and gloves during the peak of the pandemic to meet high demand for these products.
