

THE STOCK MARKET DII KIT

As domestic institutional investors—mutual funds, insurance companies, banks, financial institutions, pension funds, etc.—continue to increase their exposure in the stock markets, their stake, along with that of retail and high net-worth individuals, has reached an all-time high of 23.53 per cent in the April-June quarter, as per data from Prime Database. On the other hand, net outflows from foreign portfolio investors or FPIs continued during the quarter, thereby bringing their cumulative stake to a 10-year low of 19.20 per cent. Just another proof of domestic investors emerging as a strong counter-force to their foreign counterparts.

THE RACE TO BUILD SCALE PRODUCTION

After racing to 12.2 per cent market share in FY22 from 5 per cent in FY20, Tata Motors is in desperate need to augment capacity to sustain its growth. It has found a solution in Ford India's manufacturing plant at Sanand, Gujarat, which has a capacity of 300,000 units. Currently, Tata Motors has an annual capacity of 480,000 units for passenger cars, of which 80 per cent is being utilised. The company has signed a unit transfer agreement to take over Ford India's plant for ₹726 crore.

MTM LOSSES HIT SBI

State Bank of India, on August 6, reported a 6.7 per cent (YoY) and 33.42 per cent (QoQ) fall in net profit to ₹6,068 crore for the April-June quarter. Market watchers believe that bulky mark-to-market (MTM) losses on the investment book arising from the hardening of bond yields led to the drop. On the other hand, net interest income increased by 12.87 per cent YoY to ₹31,196 crore in Q1FY23. Nirmal Bang Institutional Equities said, "SBI's net profit growth was impacted by MTM loss worth ₹6,500 crore."

SOUTHERN MAGIC Team RRR during the film's promotional event at PVR Plaza, Delhi

A RECORD ₹883 CRORE: That's the combined quarterly net box-office collections in April-June 2022 of multiplex chains PVR Limited (₹530 crore) and INOX Leisure (₹353 crore)—the highest ever in a quarter for both of them. That's a 19 per cent jump from the ₹743 crore the two multiplexes made through net box-office collections in April-June 2019. It's all thanks to the twin delights of a Covid-19-free quarter and back-to-back blockbusters, mostly from the South. It spells cheer for the chains, which are in the midst of a merger, after two years of the pandemic and the OTT threat assaulted their finances.

(EM)POWERING DISTRIBUTION

The long-awaited Electricity (Amendment) Bill, 2022, has been sent to a parliamentary standing committee for review following opposition protests. The bill seeks to give consumers the liberty to choose their electricity supplier just like they choose telephone, mobile and internet services, besides boosting production of green energy by aligning states with national goals.
