

RAJASTHAN

An Emerging Education Hub

The Rajasthan government is committed to provide quality education and is emerging as an education hub in the country. Chief Minister Ashok Gehlot in 2019 started Mahatma Gandhi English Medium Schools in the state to celebrate the 150th birthday anniversary of the Father of the Nation. Today there are 1494 Mahatma Gandhi English Medium Schools in the state and more than 2.50 lakh children studying in them.

The schools have become so popular that people are asking the ministers and public representatives to get admissions, as applications are more than the available seats. The

government has created a separate cadre of English medium teachers and 10,000 English teachers will be recruited. Recently, the

Department of School Education

and Literacy, Ministry of Education released the Performance Grading Index to assess the performance of the school education system at the district level for 2018-19 and 2019-20. Sikar in Rajasthan was the highest performing district in school education, followed by Jhunjhunu and Jaipur districts in 2019-20. These three districts were in the 'Utkarsh' category (scoring 81-90% on a scale of 100). It is to be mentioned that 24 districts were in the category of Ati-Uttam and six districts in the 'Uttam' category. In the 2018-19 report, 21 districts were in the 'Ati-Uttam' category and 12 districts in the 'Uttam' category. Gehlot wanted that youth who are unable to get good coaching from reputed institutes for the want of money should get coaching and should fulfil their dreams. He announced Mukhyamantri Anuprati Coaching Yojana during the budget 2021-22 and decided to benefit 10,000

students. The government spent Rs 3.54 crore in this scheme during the last financial year. More than 1 lakh students applied for this scheme and a merit list of around 9000 students was released. For this financial year, the state government increased the budget to Rs 17.15 crore and increased the number of seats to 15,000. It is to be mentioned that 116 coaching institutes submitted their proposal to impart coaching for one or more examinations and the state level committee selected 47 institutes. If the student has to go out of the city to another city to study in the

coaching centre then the state government will give Rs 40,000 per annum for boarding and lodging. In this scheme, coaching is imparted for civil services examination by UPSC, RAS or

Subordinate Service Combined Competitive Examination by RPSC, REET examination, patwari/junior assistant and other exams of the said level by RSSB, engineering/medical entrance examination, CLAT exams and CAFC, CSEET and CMFC exams for students of commerce faculty. Rajasthan Housing Board decided to develop a coaching hub at Pratap Nagar in Jaipur on a 65,000 square metre area. Gehlot laid the foundation stone on August 22, 2020. The reason to develop the coaching hub was to provide all educational facilities in the same premises, as coaching institutes were mushrooming in the residential areas in the city due to which traffic and parking problems had come up. To resolve this problem, the coaching hub was the solution, which was developed by spending Rs 228 crore and it can accommodate around 70,000 students.
