## A Model State providing employment

Rajasthan Chief Minister Ashok Gehlot who believes in responsive, transparent and answerable government has been very sensitive towards the unemployment issue. The state government in the last three years has provided 1.29 lakh government jobs to youth, while the process is on to recruit on more than 1 lakh posts and the Chief Minister during the budget 2022-23 has announced recruitment on additional 1 lakh posts. It is to be mentioned that compared to the appointments given and proposed jobs by the state government, the

centre has given only 2 lakh jobs in the last five years from 2017-18 to 2021-22 (as per the information provided in Rajya Sabha). Maximum jobs have been given

in education and health departments on the posts that are directly linked to the general public.

Sanwar Mal from Chomu in Jaipur district said that the state government has done a good work from the perspective of the unemployed. In August 2021, he was appointed as a school lecturer (agriculture). The state government is continuously giving employment in various departments, he added.

The Chief Minister was also concerned about the insecure future of the government personnel post retirement re-implemented Old Pension Scheme (OPS) for those who got appointed on and after January 1, 2004. He made the announcement of OPS during the budget 2022-23. Following this historical step of the Rajasthan Government, Chhattisgarh and Jharkhand too announced the OPS and many states are studying the Rajasthan model to implement the same at their place.

During the corona pandemic, people living in rural areas got support from the Mahatma Gandhi Rural Employment Guarantee Scheme and Gehlot to financially strengthen the helpless and needy families in cities announced Indira Gandhi Shahari Rojgar Guarantee Yojana in all the urban local bodies in the budget 2022-23. Under this scheme on the lines of MGNREGS, families residing in urban areas will be provided employment for 100 days in a year. The works that will be done in urban employment scheme include cleanliness

and sanitation, water conservation, environment conservation, convergence work, heritage conservation, building houses in PM Awas Yojana/CM Awas Yojana etc. So far, more than 1.90 lakh job cards have been is-

sued and 27,414 labourers have demanded work. Similarly, many youth after passing out from colleges and universities with good marks want to prepare for competitive exams to get government jobs, but adverse financial conditions of the family become obstacles. Mukhyamantri Yuva Sambal Yojana was started to support such youth.

This scheme was launched on February 1, 2019 and till now 5.66 lakh unemployed youth have been disbursed Rs 1532 crore as allowance. Males are being given Rs 4000 per month, while women, disabled and transgender are being given Rs 4500 per month. These unemployed youth are made to work for a few hours in government offices and in the remaining time, they study for the competitive examinations. With the money they get as allowance, they spend on books, boarding and lodging. By working in government offices they get experience of the government working.
