tural transformation—of inclusion, being recognised and actively promoted—that is more needed in organisations.

The stage was then graced by another stalwart from the banking industry, who is also known for his efforts towards making his organisation—Kotak Mahindra Bank—one that is known for gender inclusion. Uday Kotak, MD & CEO of the bank, in a conversation with Siddharth Zarabi, Managing Editor of *Business Today* TV, said there are many stereotypes regarding certain jobs that a woman can’t do at a bank, but there are a number of areas where women actually score much better than men. “One is commitment to repay a loan. That is clearly superior.
