

Hey Siri,
remind me to sanitize
my laptop 30 days
from now.

Shield30. Total protection from viruses
for 30 days with a single application.

Wipe any surface once with
Shield30 Surface Guard, and
leave sanitizing out of your to do
list for a month. Shield30 forms an
invisible shield of nano-needles
that physically destroy disease
causing germs for 30 days, even
if the surface is cleaned regularly
after application.

Shield30 is odourless, colourless,
non-toxic. It has been clinically

proven in dozens of independent
lab tests and approved by
international health authorities.

Shield30 Surface Guard is
available at all leading
pharmacies in Tamil Nadu.
