

The similarities with Ma's model are hard to ignore, as the key is the proprietary payments or retail transaction data that will help Jio create a business model around lending, asset management, insurance, and stock broking. The 66-year-old Ambani, Reliance Industries Ltd's (RIL) Chairman & MD, is taking one step at a time. Ambani established a beachhead

in the financial services industry by acquiring a payments bank licence in 2015, two months after the Reserve Bank of India invited applications for this new class of banks. Payments banks are meant for payments and remittances, can accept small savings, and issue debit cards but not credit cards.

The market got a whiff of the group's ambitions, but Reliance

THE AMBANI STRATEGY

Reliance has capitalised JFS with a net worth of ₹1.2 lakh crore to create one of the world's highest capitalised financial services platforms at its inception

Jio Financial's digital-first architecture is expected to give it an edge in reaching millions of Indians

| 31

Entering a highly capital-intensive business, RIL has provided JFS with a strong capital foundation to build a trusted financial services enterprise and achieve growth

JFS has a strong leadership team that has financial industry experience and young leaders who are eager to take on big challenges

Note: Culled from Mukesh Ambani's address to shareholders on August 28, 2023
