

of land to planning, execution, construction and marketing of the projects. The robust business model consists of developing state-of-the-art premium and luxury properties, besides being primarily engaged in the business of the development and leasing of commercial and retail properties (the "Rental Business") and the development and sale of residential properties (the "Development Business").

Mr. Karun Varma, Senior Executive Director - North Offices Business, who strategized the enviable extent of DLF footprint in Gurugram, mentioned "Meeting our clients' expectations, sustainability is the base of our growth strategy. Our customer base, which largely consists of large Fortune 500 corporations and Indian companies, seek office spaces that are eco-friendly and safe for their employees which are in line with their global ESG policies. DLF Cybercity in Gurugram is a confluence of international and national cultures where business thrives, it is also the world's first business district to be awarded the LEED Platinum city and community. We have the largest LEED Platinum Certified portfolio in the country and offer our clients multiple locations and solutions in NCR as per their existing and future growth plans."

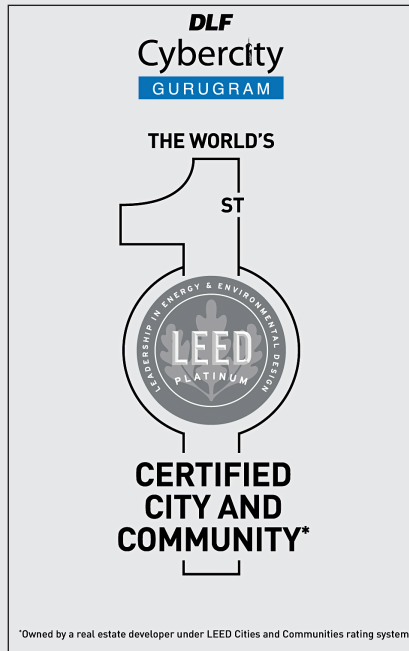

The marquee DLF project in Gurugram - Downtown has a development potential of 11 mn sqft, Atrium Place is another 4 mn sqft of commercial development and these will be integrated into Cybercity which will make it one of the largest Business District in the Country with 29 mn sqft. DLF has also entered a new segment of Data Centers with the launch of its first project DLF Tech Park in Sector 143 A, Noida. With this, the premier realtor will have a presence of 4 mn sqft (approx.) in Noida.

The hefty portfolio of DLF Group consists of 153 real estate projects and a developed area of 331 mn sqft (approx.) and has set its goal to tap the development potential of 215 mn sqft (approx.) across the residential and commercial segments. The group has an annuity portfolio of over 40 mn sqft (approx.). DCCDL - the rental arm of DLF Ltd has a commercial portfolio of over 40 mn

GRESB, an international organization that provides transparent environmental, social and governance (ESG) data to financial markets has recognized DLF and DCCDL as Regional Sector Leaders for their developments across office spaces. DLF & DCCDL also achieved the highest ranking of 5 Star rating from GRESB.

According to the United States Green Building Council (USGBC) data, India has achieved a total count of 146 green buildings as of February 2022, to emerge as one of the leading countries to adopt green and sustainable buildings representing nearly 2.8 million gross area square metres (GSM) of certified space. In terms of overall Grade-A office stock, the leading four metro cities of Bengaluru, Mumbai, Delhi NCR, and Hyderabad account for over 3/4th of the existing green footprint, which over the next decade would accelerate green-certified buildings and is expected to cross the 50% mark. This projection is seen as a positive and promising sign for DLF to delve into the huge untapped potential in the building space, allowing it to unleash its creativity in architecture and engineering excellence to build green, build sustainable, build bold, aesthetically.

For DLF, the business of real estate development is not just about bricks, mortar, chrome and glass. Instead, DLF has been very conscious about infusing wellness and creating a positive impact on every person dwelling and working in a DLF project. DLF properties are not only built aesthetically but are also cost-efficient and energy-saving green buildings. The LEED award has raised the benchmark of excellence and reiterates DLF's commitment to adopt a prosperous and sustainable model to benefit its customers and contribution to a greener planet.

sqft which is US Green Building Council (USGBC) LEED Platinum and LEED Zero Water Certified. DLF also has the privilege of having won 17 Swords of Honour in 2021 — by British Safety Council, the highest number received by any company globally in a single year.
