

HERMÈS DOG BOWL

WHERE TO BUY [hermes.com](https://www.hermes.com)

PRICE \$1,200

► **There are no** half measures when it comes to French luxury brand Hermès. Last year it launched a dog bowl made from oak wood and assembled using a barrel-making technique. It has two inner stainless-steel bowls that can be separated thanks to its central magnets and can also be removed from the wooden base. The 'paw-fect' bowl is made in France. Available for \$1,200 on the Hermès website, it does not ship to India. So, pick it up on your next shopping spree abroad.
