

# THE DIGITAL DIWALI HAMPER

We all love caring for our loved ones, but how about some self-love this festive season? Pamper yourself with the latest gadgets for a better quality of life

BY NIDHI SINGAL

## LET'S GO OUTSIDE

If you love adventure and outdoor sports, you might want to gift yourself this smartwatch. Boasting a premium finish, Samsung's Galaxy Watch5 Pro has a durable titanium casing and features a 1.4-inch 450x450 Super AMOLED, full-colour, always-on display with Sapphire Crystal to survive the bumps and falls. The all-new D-buckle sports band looks stunning. Paired with Android devices, the smartwatch's all-new Route Workout feature comes to life. And its Track Back feature helps you get back to right where you started after you've run for some distance. The Watch5 Pro can detect physical activity to track routines and it supports over 90 exercises.

banish the winter  
chill with this  
multifunction  
device*

## BREATHE FREE

The festive season is often marked by deterioration in air quality. Why not get yourself a good air purifier that will also help you beat the biting cold? Dyson's Pure Hot+Cool Cryptomic can keep indoor air free of pollutants while keeping you warm. This multifunction device houses layers of filters—HEPA and activated carbon filtration—that clean the air and also get rid of indoor pollutants like formaldehyde, bringing down PM 2.5 levels quickly. On the heating front, once the room's desired temperature is reached, the machine stops throwing warm air and resumes operation only after sensing a drop in temperature.
