

Sri MK Paper Mills - Setting trends in Paper Production in India

The Paper Industry is a very dynamic industry. It is all about building capacity, while keeping the product mix abreast with the future market requirements. It has also got to address the issues of managing the environment. Aman Kedia has been successful enough to manage all these factors to drive Sri MK Papers Mills to a strong position and put Telangana's Nizamabad on India's Paper Producers Map.

Sri. MK paper mills is one among the few paper mills to have the production capacity of 45,000 TPA. The company in now, one of the leading player in the industry, offering a wide range of products to customers worldwide. They are known for their high standards of quality and excellence in producing eco-friendly paper.

MK Paper Mills is known for its state-of-the-art manufacturing facilities, deploying the latest technology and processes to produce premium paper products. Set up in, 2013, to meet this growing demand for paper products, it has evolved to offer innovative, useful Kraft Paper products that meet consumer demands while achieving the highest quality standards. Using unique automated processes and high-quality, Eco-friendly materials, their products deliver consistent grammage, accurate moisture distribution and burst factor. MK Paper Mills has Size Press for Higher Bursting Factor & Twin Wire (Double Wire Technology) with Air Cushion Pressurized Head box for the uniform formation of Kraft paper to maintain the Uniform GSM & Moisture.

The Consumer demand for creative box design and the challenges of sustaining international quality standards while offering structural strength, durability and dimensional accuracy, pushes the Indian Paper industry to evolve and grow. It is these forces that has helped MK Paper Mills to evolve as one of the leading manufacturers of packaging paper in the country with a capacity of 50,000 TPA.

The company's commitment to sustainability is evident in their product range, which includes recycled paper, bio-degradable paper, and eco-friendly packaging. Their Kraft Paper products are made from eco-friendly materials and use energy-efficient processes and equipment. They are available in a wide range of grammage and a variety of colors.

The credit for the enviable growth of MK Paper Mills

goes to Aman Kedia. Born in a family of entrepreneurs, he approached the job like the engineering he is, with clockwork precision. He started focussing on Sri MK Mills Pvt. Ltd., one of their family businesses. He set up the factory from scratch and scaled it to a production capacity of 45,000 TPA which was recognized by the government. He leveraged his technical expertise to ensure that the Mill followed all pollution control requirements and obtain the necessary certificates including the IEC Certificate, ISO-9001-2015 Certificate, LEI Certificate, Udyam Registration, and FSC COC Certificate.

Sri MK Paper Mills was featured amongst the TOP 10 Paper Mills in FY 21-22 & 22-23 by a renowned magazine. Aman was also awarded Young Entrepreneur of the Year 2022 by Franchise India. A national daily also awarded him with Excellency Award in Packaging Paper Manufacturer in 2022. The Mill also received an Appreciation certificate received from Govt. of India for clearing its entire liability, having no outstanding tax liabilities and having filed its returns electronically in the prescribed time. Moreover, the mill also received the Global Business Achievement Awards 2022 from Top-notch Foundation.

Under Aman's visionary leadership, Sri MK Paper Mills is rewriting the code of success in the Paper Industry. Trust him to keep innovating and introducing new trends to shape the industry's future.
