One Trade Tower,  
Bengaluru

Multi-cuisine Food court,  
One International Center, Mumbai

As a responsible corporate, conscious about not adding to the woes, NOP has embarked on a transformative journey of holistic waste management across its assets since July 2021, and aims for the ambitious goal of zero waste to landfill.

- Through waste reduction, segregation, recycling, and responsible disposal, NOP has successfully diverted 94% of the

waste generated within its parks away from landfills.

- The implementation of the 3-level waste segregation efforts has resulted in waste segregation to 20+ streams, which are each dispatched to respective recyclers for processing.

- For waste that cannot be recycled or recovered, responsible disposal methods are followed to minimize potential harm to the environment and human health.

### Forging a sustainable future

As sustainability takes center stage, NOP has emerged as a visionary thought leader, spearheading the transformation of office spaces into sustainable ecosystems.

With a strong focus on long-term value creation and resilience, proactively embracing evolving ESG regulations like the Business Responsibility & Sustainability Report (BRSR), and acting as a catalyst for change by prioritizing environmental stewardship and pioneering initiatives, NOP is shaping the landscape of sustainable practices, inspiring others to follow in their footsteps, propelling us towards a greener, more prosperous, and sustainable future for all.

**“We treat the LEED Zero certification as the beginning of a long journey and will continue prioritizing the decarbonization initiatives. Going forward, we hope to contribute more to saving the planet by setting bold targets. To achieve these goals, we plan to deepen our engagement with our tenants, employees, and other stakeholders to promote awareness and understanding of ESG issues and foster a culture of sustainability. We also plan to leverage GRESB and other reporting frameworks to benchmark our performance, identify areas for improvement, and communicate our progress to stakeholders.”**

**Jiji Thomas**, Head of Operations, Nucleus Office Parks

## AWARDS & ACCOLADES

### LEED Carbon Zero & LEED Zero Energy

**One Trade Tower, Bengaluru, is the first developer-owned project in India to be awarded the LEED Zero Carbon Certification.**

These accolades reflect the One Trade Tower's exceptional performance in energy efficiency and carbon neutrality.

**LEED Zero Carbon** recognizes buildings operating with net zero carbon emissions for over one year.

**LEED Zero Energy** certification is awarded to projects that generate renewable energy in amounts equal to the fossil fuel energy delivered to the project site.

### WELL-PR Certification

**NOP has now achieved an exceptional milestone by becoming the globally largest WELL at scale enterprise account to receive the prestigious WELL Performance Rating.**

Nucleus Office Parks focuses on people-centric operations and wellness in its assets under management. As part of their ongoing efforts to provide a quantifiable assessment of the wellness features of its assets, they were evaluated by the International WELL Building Institute (IWBI), which works towards transforming health and wellness in buildings, organizations, and communities.

By embracing the WELL-PR Certification, NOP demonstrates its dedication to creating healthier and more productive workspaces by implementing innovative design strategies and industry-leading practices to enhance indoor air quality, lighting conditions, and ergonomic features.
