

employment for rural masses and women Self-Help Groups. At the Barhi Gauthan, 11 dedicated women from the group are involved in vermicompost production. The steady income generated through this work has significantly elevated their standard of living.

Kevra Bai, an active member of the group, expressed her appreciation for the scheme, stating that previously she had to look for work in nearby villages. Despite putting in considerable effort, she could not earn a substantial income. However, with the initiation of the Godhan NYAY Yojana, she now has a stable source of income through the procurement of cow dung and vermicompost production. This opportunity has brought about a

positive change in her life.

Kevra Bai highlighted the remarkable employment and income prospects the vermicompost production has provided for women of the group. Their family's financial condition has improved, and they wisely utilize their earnings to support their children's education and manage other household responsibilities.

Notably, Kevra Bai has contributed Rs 35,000 towards the construction of a new house of a fellow member, Sharda Yadav. Similarly, the Godhan NYAY Yojana continues to positively impact the lives of all its beneficiaries. All members of the group heaped praises on the scheme and extended their heartfelt gratitude to Chief Minister Shri Bhupesh Baghel

for creating a pathway towards a prosperous life through this visionary initiative.

Sales worth more than Rs 2 crore 40 lakhs recorded in Jashpur C-Mart

Food Lab facility available for packaging of the products

Under the leadership of Chief Minister Mr. Bhupesh Baghel, State Government is implementing Mahatma Gandhi Rural Industrial Park (RIPA) Scheme with the objective of making our villages economically viable. Today, women self-help groups are reaching the heights of success by engaging in various livelihood-oriented activities. Supporting their endeavour, Chhattisgarh Government has established C-Mart facility to sell the goods produced by the women self-help groups. Members of women self-help group in Jashpur have so far sold goods worth more than Rs 2 crore 40 lakh at C-Mart. The administration has provided food lab facility in Gauthan for packaging of the manufactured products.

In Bahnatangar Gauthan of Pathalgaon development block, various livelihood activities including pole construction, mustard oil production, community farm, chicken hatchery, murra (puffed rice) production, tomato ketchup production work is being conducted in a systematic manner. With the construction of 6 thousand poles, the members of the women self-help group have earned a net income of Rs 4 lakh 20 thousand. Women are earning additional income from community farm and goat rearing.

The women of the Pooja self-help group are actively involved in mustard seedoil crushing work at RIPA. With the assistance of a machine provided by the administration, they efficiently carry out this process. The oil thus produced by this group is high on demand, because of its quality and purity. Shakti women self-help group cultivates tomato, okra, barbatti, gourd, green chilies and other green vegetables in the community garden and sell it in the local Haat-Bazaar. Jai Mata self-help group is engaged in Chicken hatchery work. They even supply chicks and eggs to the other gauthans as per the demand.

Women of Sanskar self-help group make tomato ketchup and Rani women self-help group of village Rajouti (Bagiya) Gauthan of Kasabel development block is cultivating turmeric and spices, and earning good profit from the same. The products made by women self-help groups are being sold in C-mart as well as in local schools, ashrams, hostels, local haat bazaars, district level and state level exhibitions.
