THE BIG PICTURE OF COMMUNICATIONS IN INDIA

(From left) **Siddharth Zarabi**, Managing Editor of *Business Today* TV, with **Ashwini Vaishnaw**, Union Minister of Railways; Communications; and Electronics and Information Technology, joining in remotely

» Ashwini Vaishnaw stressed on a comprehensive evaluation of AI with an aim to identify the sectors that would be most affected by it so that appropriate measures can be taken

» He emphasised the need for all stakeholders and the political spectrum to unite in order to reach a conclusive understanding, aligning the nation under a unified vision. This

approach, he stated, is crucial given the magnitude of the topic and its implications for India's progress

» Vaishnaw also highlighted the need for the country to proactively work towards the development and implementation of 6G, as it is expected to be ready by 2029. India should strive to align with this timeline and deploy it within the country by then, he said
