

TECH

A **S NEWER TECHNOLOGIES** unfurl their potential, signalling profound shifts in our everyday lives, the BT Tech Today Congress, held at the Taj West End in Bengaluru on June 2, united the brightest minds in the field, serving as a powerful platform where the future of tech took centre stage.

Amidst the global frenzy ignited by the transformative impact of artificial intelligence (AI), the event featured multiple tracks around it. Prominent tech minds, including Romesh Wadhvani, Chairman & Founder of SAIGroup, and Manish Gupta, Director of Google Research India, shared their expertise, guiding the exploration of AI's profound influence.

Infosys Founder N.R. Narayana Murthy shed light on the potential of AI for India, while also addressing corporate governance issues in start-ups. Union Minister Ashwini Vaishnaw emphasised the transformative power of AI and the importance of India's preparedness for 6G technology, while another panel explored the need for establishing unique use cases for 5G.

The gathering also featured many other luminaries including Karnataka Deputy Chief Minister D.K. Shivakumar; Sean Hyunil Sohn, CEO of KRAFTON; Irina Ghose, COO of Microsoft India; and David Reed, CEO of Vedanta Foxconn Semiconductors, among others. Read on to find out the key highlights from the diverse sessions at the event.

KARNATAKA'S VISION FOR PROGRESS

(From left) **Rahul Kanwal**, News Director of India Today and Aaj Tak, and Executive Director of *Business Today*, with

D.K. Shivakumar, Deputy Chief Minister, Karnataka

» D.K. Shivakumar said Bengaluru attracts people from all over the country due to the economic opportunities, educational institutions and the culture it provides, among other things

» Enumerating the problems in the city, he said that he has already started talks with various stakeholders to find solutions to the problems, but they will not be solved overnight

» He praised the tech tycoons of

the city for their contribution to the state's economy and invited them to be a part of Bengaluru's development, as he believes that they can come up with better solutions

» Touching upon the recent announcement by Foxconn to set up an iPhone manufacturing facility in the state, Shivakumar said that as long as a decision improves the state's economy, the state government would support it
