

WAFER WARS IN A WORLD ON CHIPS

(From left) **David Reed**, CEO, Vedanta Foxconn Semiconductors

Neil Shah, Vice President-Research, Counterpoint Research

Hitesh Garg, India Country Manager, NXP Semiconductors

Satya Gupta, President, VLSI Society of India

Santhosh Kumar, President & Managing Director, Texas Instruments India

» David Reed said India needs to get the first fab off the ground to prove that the country realises that semiconductors are the future

» Satya Gupta said that more product companies should be created in India as that will drive the demand for chips, which in turn will create the demand for fabs

» Neil Shah said that India needs to have a robust supply chain,

as currently, everyone is over-reliant on some suppliers concentrated in one or two regions

» Hitesh Garg said that as the third-largest automotive industry in the world, the country will drive a lot of demand for next-generation chips

» Santhosh Kumar said that setting up the ecosystem needs to be looked at from the perspective of improving ease of living

FOCUS ON KARNATAKA

(From left) **Dinesh Gundu Rao**, Minister of Health & Family Welfare, Government of Karnataka

M.B. Patil, Minister of Commerce & Industries, Government of Karnataka

» M.B. Patil said that he has met the representatives of Foxconn with a plan to help it set up an iPhone production facility in the state

» He added that the entire world looks at Karnataka due to its progressive policies

» Dinesh Gundu Rao said that the state

government will look to reduce the time it takes to set up an industry by bringing in investment-friendly policies as currently it take two years to do that

» He further said that although Bengaluru's weather is good, the city's roads need to be decongested with better infrastructure

THE WORLD OF GAMING
