Information
Technology, Skill
Development &
Entrepreneurship

Rajeev Chandrasekhar said the announcements made by Micron, Lam Research and Applied Materials during PM Narendra Modi's US visit will create over 80,000 jobs in the chip ecosystem

Chandrasekhar said, of those jobs, 65,000–75,000 will be high capability ones of global standards, be it very-large-scale integration, characterisation, quality, manufacturing or process

He said, given the scale of job opportunities that will be there, students need industry- and domain-specific skills, along with an MBA
