

B-school Education: The Great Enabler

Pramath Raj Sinha, Founding Dean, Indian School of Business; and Founder & Chairman, Harappa Education

Pramath Raj Sinha said there is now a need for constant technical and functional training, with on-the-job learning set to become even bigger

He added that acquiring new skills such as data science or digital marketing was undeniably important, apart from building a strong foundation

Sinha said the Indian education system is going through a major transformation, with so many being educated so quickly

Edtechs Making Education Better
