

1 N. Venkata Sastry, Director, SRM Institute of Science and Technology; Nandakummar R., Director, Directorate of Communication, SRM Institute of Science and Technology; Minister Rajeev Chandrasekhar; Aroon Purie, Chairman and Editor-in-Chief, India Today Group; Sourav Majumdar, Editor, *Business Today*; Siddharth Zarabi; and Alok Nair, Chief Revenue Officer, *Business Today* at the unveiling of the *BT India's Best B-Schools* issue

2 The audience listens in rapt attention to a session in progress, at Kamal Mahal in ITC Maurya, Delhi

Emphasising the role of industry as an educator, Raghav Gupta said that for an MBA student looking to work in digital marketing, a micro credential from Meta also carries a lot of value

Pranjal Kumar said a key metric of the impact that edtech platforms are creating is in the measure of how many working professionals have upskilled or reskilled themselves and how they are using those skills

Ranjita Raman said edtech firms are bridging the gap between industry and educational institutions by providing working professionals with guidance and personalised counselling in selecting programmes

Making the Right Connections

Ashutosh Gupta, Country Manager-India, LinkedIn

Speaking about the skills-first approach being adopted by recruiters, Ashutosh Gupta said it is helping companies develop a highly skilled and inclusive workforce

He said that focussing on skills can help employers find non-traditional talent and also help employees and job seekers understand the market, trends, the skills they have, and the ones they need

Gupta said that AI is not just about the displacement of jobs, rather it'll make certain jobs more productive, and there will be different layers of productivity due to AI
