

Timeless Luxury Has a New Address! Zoya opens at Ambience Mall, Gurugram

The House of Tata unveiled its first Zoya boutique within Ambience Mall, Gurugram, with Aditi Rao Hydari as their guest of honour. The exquisite boutique with its artisanal soul and lush, feminine interiors, echoes the maison's unwavering commitment to impeccable craftsmanship. We speak to Amanpreet Ahluwalia, Business Head, Zoya:

What is Titan's vision for Zoya?

Zoya was envisioned as a brand of exquisite diamond jewellery from the House of Tata with its heart in India and an eye on the world. With Zoya, we are redefining jewellery for the Indian

market with meaningful, wearable pieces of art. It's complemented by a highly personalised service experience for our customers. I was recently told by someone that Zoya is India's answer to the West when it comes to timeless luxury It's feedback like this that reassures us that we are on the right path!

Titan has many jewellery brands - who is the Zoya woman?

Zoya is the luxury brand from the House of Tata. At Zoya we have a brand myth about the 'Zoya woman'. She plays many roles in her life... perhaps she is a nurturer, a caregiver, a dreamer, or an ambitious go-getter. We see her finding ways to authentically reconnect with her deep feminine self, beyond these external roles. Every creation of Zoya is imagined as a talisman that enables her to celebrate this journey. Every piece tells a story. This is the starting point of our creative process, and the narrative resonates strongly with our audiences.

What would you say is the biggest shift in the way women are engaging with fine jewellery post the pandemic?

Women today are looking for meaningful jewellery. This is the biggest shift. Customers relate to the unique narrative behind each piece and are inspired by these. This is why we also have a bespoke service that allows for creative immersion where you can interact with our jewellery designers to create custom pieces of art flowing into fine jewellery that are uniquely yours.

Have jewellery trends moved from heavy jewellery to minimal?

I would like to believe that we don't follow trends, but create them. Zoya has always challenged traditional notions that endorse the view that jewellery was meant to display one's status and be worn sparingly. Zoya is designed to make your daily wear meaningful with artistic pieces that reflect your individuality and celebrate your everyday.

Why did you choose Gurgaon and what next for Zoya?

We are glad that Zoya has been so well received through our stores and galleries across India. Delhi is a very important city in the Zoya story. We have a store in South Ex and are happy to now open in Gurugram, and are certain that the city's discerning clientele will fall in love with Zoya's jewellery. You can expect more exciting announcements as soon as we find the real estate that matches our very stringent criteria! In the meanwhile, our jewellery advisors are just a click or a call away, and serve customers across India and the world through our digital channels.
