RARE BOOKS

Do you love hummingbirds? How about books on hummingbirds? Even better, first editions. Hummingbirds were the favourite avian subject of British ornithologist John Gould (1804-1881) who wrote six volumes on them, each beautifully illustrated with larger-than-life-size images, totalling 418. These hand-coloured lithographs make each volume a collectible. The volumes will go up for auction as part of Sotheby's Fine Books from a Distinguished Private Library collection on November 28 and you can bid for them online.

Estimated price: £70,000-100,000
