

RELIANCE REIMAGINED

India's largest company continues to grow in its traditional and consumer-facing sectors, but its digital businesses, data capabilities, and seamless connectivity will drive the next phase

FOR RELIANCE Industries Ltd, which closed FY23 with consolidated revenues of ₹9,74,864 crore, the decade gone by was about new ventures that gave the B2B conglomerate a healthy appetite for consumer-facing businesses.

In the year to March 31, 2023, Reliance's bedrock, the refining and chemicals operations (which it calls oil to chemicals or O2C), fetched over 60 per cent of its revenue, while the rest primarily came from retail and digital. Looking into the future, Reli-
