

DUAL-PURPOSE CANS

Looking to create your own space in a bustling city like Delhi, where air pollution is an integral part of life? The Dyson Zone can be your solution. This pair of noise-cancelling headphones comes with a personal air purifier. Offering commendable sound output and noise cancellation, these cans have a removable, contact-free visor that throws a continuous stream of purified air to the nose and mouth, without even touching the face. This one is something you may want to wear every time you step out of your house, but mind you, it is on the heavier side.

A festive season shopping list often includes a smartphone upgrade. If you're looking for a new smartphone, the iPhone 15 Plus is a good buy. Apple has pushed the envelope with this phone, making it a fierce competitor that outshines its Pro versions in terms of value for money. The Dynamic Island on the 6.7-inch screen boosts productivity, and the new 48MP camera takes great pictures in practically any situation. The matte colour-infused rear glass looks premium—like the iPhone 15 Pro Max. If it is too big for your hands, consider the 6.2-inch iPhone 15 for ₹79,000.
