SOURCE ALTG INNOVATION CENTRE, RESEARCH REPORTS

Cipla is strategically expanding its portfolio and capabilities, focussing on peptide development, exploring innovative areas such as biosimilars and mRNA therapies, and strengthening its presence in the US, South Africa, and some international markets.

WHO IS IN THE RACE?

If Dr. Reddy's Laboratories bids for and gets Cipla, the merged entity

would become the second-largest Indian-origin pharma company in terms of domestic revenue, with a consolidated market share of eight per cent, based on June 2023 Indian Pharmaceutical Market (IPM) data. This would also hold for the US and emerging markets, significantly impacting the pharmaceutical landscape.

But Dr. Reddy's told the stock exchanges on September 5 it would

refrain from commenting on market speculation. "Currently, there is no event or information that necessitates disclosure under Regulation 30 of the Sebi Listing Regulations," it said.

Industry sources say Torrent Pharma is looking for financing to buy Cipla. Torrent's acquisition of Cipla would be one of the most significant transactions in the Indian pharmaceutical industry, poten-
