

INVESTING IN SUSTAINABILITY

Rising environmental risks have spurred investments into sustainable businesses

INDIA'S COP26 TARGETS

Year 2030 is the first crucial milestone to achieve net-zero emissions by 2070

Non-fossil power:
500 gigawatts (GW)
by 2030 from
151.4 GW in 2021

Carbon intensity:
40 per cent
lower
by 2030

Renewable energy
penetration:
50 per cent by
2030

ENERGY SECTOR DOMINATES GROSS EMISSIONS IN INDIA

(Sectors' contribution to total emissions in per cent)

70-75%
Energy

12-15%
Agriculture

10%
Industrial

2-3%
Waste

18

per cent

How much the global GDP would shrink by 2048 if no action is taken against climate change

26.5

per cent

The comparative number for the Asian economy overall, while Asean countries could lose 37.4 per cent of their GDP

80

per cent

of countries have made net-zero commitments

₹22-25

lakh crore

The estimated amount India would need to spend on decarbonisation over the next seven years
