

NUCLEUS OFFICE PARKS POWER GREEN ASSETS

Nucleus Office Parks (NOP), Mumbai, Maharashtra, takes pride in being the largest LEED v4.1 O+M certified portfolio in India, which creates 'spaces that speak' through innovative designs, technology and green practices that are aligned to the Sustainability Development Goals (SDG). As a dynamic platform for fully owned Blackstone offices in India, NOP's hefty portfolio includes over 16 million square feet of 13 + grade A commercial spaces/assets, 200+Corporates and 50K+Park users in the cities of Mumbai, Bengaluru, NCR, Chennai and Ahmedabad. As a catalysts of growth, NOP's experienced team continues to create and manage marquee assets with responsibility, serving committedly to add value for all stakeholders.

In an evolving society, development is an inevitable process of growth. The moot question is whether progress is happening at the cost of the environment impacting the lives of fringe population struggling for survival, a looming socio-economic crisis slowing down progress. Studies have indicated that the built environment is estimated to contribute close to 40% of the global energy consumption and approximately

33% of the global carbon emissions, which is huge and critical for the earth and lives on it. Quick to recognise these challenges, Nucleus Office Parks, as an asset management company, is committedly pursuing growth that is environmentally and socially sustainable and has ingrained sustainability as a key focus that drives business decisions, organizational resilience, and future-readiness. For ensuring safety and well-being of

all its stakeholders, NOP has adopted a robust ESG policy that mandates all its initiatives that are aimed at ensuring health, safety and wellness, integral for organizational growth, while creating value for everyone it is associated with or interacts.

With evolving focus on the manner of conducting businesses and achieving their goals that are considerate of the environment and society, Nucleus Office Parks has
