

adopted emerging business paradigms, which is a shift from the earlier thought of only creating wealth for the investors. NOP's new perspective looks at aligning itself with the environment, social and governance principles by UN under the Sustainable Development Goals (SDGs). Concerned by the ESG risks related to climate change, environmental management practices, working conditions, occupational health and safety, and regulatory compliance, NOP has developed its future strategies after in-depth analysis of industry trends and peer performance evaluation to maximise the value for its stakeholders. Consequently, NOP's ESG framework was created, which is based on four key pillars -Ecosystem; Human Capital, Communities and Governance. Under these pillars, eco-friendly NOP has identified rel-

NOP's ESG Goals:

- Helping combat climate change & its impact
- Providing a clean and green campus for all clients
- Ensuring a safe, healthy, and secure workplace for all
- Integrating sustainability and renewable energy across properties.

evant issues and long-term targets. The development and maintenance of "One Green Mile", NOP's flagship initiative for the Lower Parel community is a testimonial to its commitment in this direction.

Green Compliances

Nucleus Office Parks offers built environments that match global standards, and so most of their assets are certified by green

rating certification bodies such as the US Green Building Council (USGBC) and the Indian Green Building Council (IGBC). NOP considers these certifications as validation of delivering exemplary ESG performance, and has also been participating in annual GRESB assessment since 2021. Drawing inputs from these assessments and its own ESG aspirations, NOP has developed a strong strategy to act on for enhancing the
